

LEGACY TREE PROGRAM

Information

The Legacy Tree Program is a great way to honor someone or to simply add to the beautiful trees we have in Mason. By donating to the Legacy Tree Program, you are promoting community spirit, improving native species habitats, and supporting our goal for a larger tree canopy that has multiple benefits for our residents.

The Legacy Tree Program works within the City's tree inventory guidelines. We work to place the tree according to your wishes, but also in the interest of the type of tree and appropriate location. The City will do its best to communicate and work with you to find the right tree and location. The dedication, type of tree, and GPS location will be documented and will allow for tracking of the donated Legacy Tree.

Cost: \$150 tax-exempt donation

The \$150 donation, combined with the City's contribution, will include planting of a tree of your choice, from the list below, including initial soil preparation, planting, watering, and mulch. Plantings may occur between April and September. The trees are guaranteed by the City of Mason for one year.

In addition to individuals, family groups, organizations, and/or companies may purchase a tree or trees to be placed within the City limits. If members of larger groups are making individual contributions, please collect these internally with your group and only submit the full amount to the City.
